

AGM PUBLIC NOTICE

We invite you to attend our 2016/2017 Annual General Meeting!

We are pleased to announce that we have started the initial strategic assessment of potential SCHC and TransCare® integration. The aim of the project is to assess opportunities, costs, risks and benefits of the two organizations integrating or merging services and operations in order to improve community services.

Come and hear about the process and how your input will inform the final recommendations for this opportunity!
