

COMMUNITY OUTREACH COVID-19 HEALTH EQUITY PROJECT

What We Offer

- Outreach to neighbourhoods to share public health information
- Distribute Personal Protective Equipment
- Share information about the closest pop-up testing centres
- Provide critical supports to individuals who test positive to remain isolated

Goals

- Increase awareness of COVID-19 to reduce transmission and provide necessary information about available support and services and personal protective equipment.
- Increase access to testing in high priority communities
- Remove barriers to COVID-19 prevention including isolation, by connecting individuals with necessary support and services.
