Hospice Palliative Care Education

This 6 week (3.5 hour classes) standardized curriculum is based on A Model to Guide Hospice Palliative Care, 2002, specifically the Domains of Issues Associated with Illness and Bereavement is funded by the Central East LHIN.

The “FUNDAMENTALS” course is recommended for:

ALL Health Care Providers and Hospice Palliative Care Volunteers

There is a **\$50.00** fee to cover the cost of your resource guide.

Topics will include:

1. Introduction to Hospice Palliative Care
2. Dying, Death and Hospice Palliative Care
3. Disease Management
4. Physical Issues
5. Psychological/Spiritual Issues
6. Social/Practical Issues
7. End-of-Life Care and Death Management
8. Grief, Loss and Managing Occupational Stress

After 6 months experience in his or her role following active participation in the “Fundamentals of Hospice Palliative Care” education program and with support from peers/managers, *the learner will have the ability to influence the illness experience for the person and family to the extent that the learner:*

1. Demonstrates sensitivity, understanding and respect for the individuality of the person, family and team/caregivers involved in the palliative experience.
2. Observes issues associated with illness and bereavement.
3. Effectively communicates with the person, family and team.
4. Recognizes and reports changes in any of the domains of issues associated with illness and bereavement (i.e. disease management, physical, psychological, loss/grief, social and practical, end of life/death management, and spiritual).
5. Provides palliative supportive care strategies.
6. Actively contributes to the team approach to hospice palliative care.

Course Expectations

- Email and Internet connection is required to access online material
- 100% attendance and active participation in each session
- Satisfactory completion of assignments and module readings
- Respect for feelings and opinions is required
- Confidentiality is mandatory
- Although there will be no formal exams, completion of program evaluation is required.
- A certificate of completion will be provided to those who attend each session and complete assignments.

“The Fundamentals of Hospice Palliative Care” is a prerequisite course for **CAPCE** (Comprehensive Advanced Palliative Care Education for RNS & RPNs)

*****Please note***** RN's & RPN's wishing to take the CAPCE course are required to complete, free of charge, a two-week Enhanced Fundamentals course after the 6-week basic Fundamentals course.
